Material supply, manufacturing and fabrication and container repair

COMPANY PROFILE AND PRODUCT GUIDE

Buildora Supplies
Heliopolis, Cairo, Egypt

Buildora and our products

Buildora is an Egyptian company supplying steel products and providing manufacturing, processing, fabrication and container repair services. We welcome enquiries from procurement teams, contractors, manufacturers and workshops for material supply and agreed work packages.

Product	Form or section	Order information
Hot rolled steel	Sheets and coils	thickness, width, length and steel grade
Cold rolled steel	Sheets and coils	thickness, dimensions and required finish
Galvanized steel	Sheets and coils	thickness, dimensions and zinc coating requirements
Profiled steel sheets	Coloured and galvanized	profile, colour, thickness and cover width
Checkered steel	Sheets and coils	base steel thickness and required dimensions
IPE beams	IPE	section designation, length and quantity
UPN channels	UPN	section designation, length and steel grade
HEA and HEB beams	HEA / HEB	beam family, section designation and length
C sections	C sections	section depth, flange dimensions, thickness and length
Round steel pipes	Round section	outside diameter, wall thickness and length
Square and rectangular tubes	Hollow sections	outside dimensions, wall thickness and length
Steel angles	Angles	leg dimensions, thickness and length
Steel flat bars	Flat bars	width, thickness and length
Solid steel bars	Solid bars	section shape, size, grade and finish
Sandwich panels	Insulated panels	insulation type and thickness, steel skin thickness and application

Sizes, specifications and availability are confirmed for each quotation. Please include quantities, delivery location, required date and relevant drawings or technical specifications.

Steel sheets and coils

Hot rolled steel

Sheets and coils

Specify thickness, width, length and steel grade.

Cold rolled steel

Sheets and coils

Specify thickness, dimensions and required finish.

Galvanized steel

Sheets and coils

Specify thickness, dimensions and zinc coating requirements.

Profiled steel sheets

Coloured and galvanized

Specify profile, colour, thickness and cover width.

Checkered steel

Sheets and coils

Specify base steel thickness and required dimensions.

Product photographs and diagrams are illustrative. Final specifications are agreed in the quotation.

Sections and steel tubes

IPE beams

IPE

Specify section designation, length and quantity.

UPN channels

UPN

Specify section designation, length and steel grade.

HEA and HEB beams

HEA / HEB

Specify beam family, section designation and length.

C sections

C sections

Specify section depth, flange dimensions, thickness and length.

Round steel pipes

Round section

Specify outside diameter, wall thickness and length.

Square and rectangular tubes

Hollow sections

Specify outside dimensions, wall thickness and length.

Please state section designations and measurement units clearly when requesting a quotation.

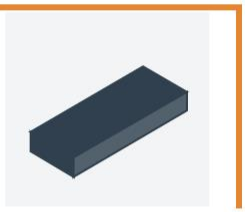

Further products and services

Steel angles

Angles

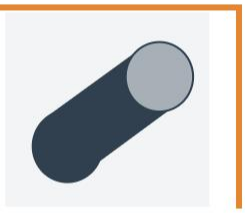

Specify leg dimensions, thickness and length.

Steel flat bars

Flat bars

Specify width, thickness and length.

Solid steel bars

Solid bars

Specify section shape, size, grade and finish.

Sandwich panels

Insulated panels

Specify insulation type and thickness, steel skin thickness and application.

Manufacturing fabrication and container repair

We provide steel manufacturing, processing and forming, alongside container repairs. Send drawings or photographs, dimensions and a description of the work required so we can review the scope.
